Secure Login for Each Hotel
[Need Help? Contact Support](#)

The image shows a login interface for an 'Owner'. At the top, it says 'Owner Login' with a link to 'Staff Login'. Below this are two input fields: 'Enter Hotel Code' and 'Enter Password'. A prominent yellow 'Login' button is centered below the fields. At the bottom, there is a link for 'Forgot Password?'.

The **Axis IT Hotel Management System** is a comprehensive, cloud-powered platform designed to help hotels of all sizes manage their operations seamlessly.

 From managing guests and rooms to tracking revenue and running night audits — HMS puts complete control at your fingertips through a beautiful, dynamic interface.

- Manage rooms, guests & bookings in real-time
- Track check-ins, check-outs & availability
- View dashboard insights instantly
- Secure login for each hotel property

Built with Modern Technology

Axis IT HMS is developed using a powerful, scalable, and industry-proven technology stack to ensure performance, security, and flexibility.

MERN Stack

MongoDB, Express.js, React.js & Node.js — a full-stack JavaScript framework ensuring fast, responsive, and scalable hotel operations.

Cloudinary

Reliable **cloud-based media management** for storing and serving hotel images, documents, and assets securely and efficiently.

JWT Security

JSON Web Tokens provide stateless, tamper-proof authentication ensuring only verified users can access hotel data.

Verified Access & Secure Login

Multi-Layer Security Architecture

Every hotel property gets a **dedicated, secured login**. Our authentication pipeline ensures only verified users access the system.

Email Verification

User identity is validated via a secure email confirmation flow before access is granted.

JWT Authentication

JSON Web Tokens sign and verify every session, preventing unauthorized access and token tampering.

Clouinary Integration

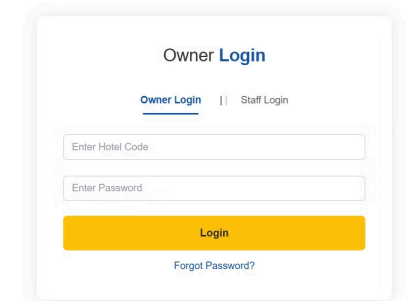

All media assets are stored securely in the cloud with access-controlled delivery policies.

Welcome to Axis IT Info Hotel Management Portal

Your trusted partner for hotel performance & growth.

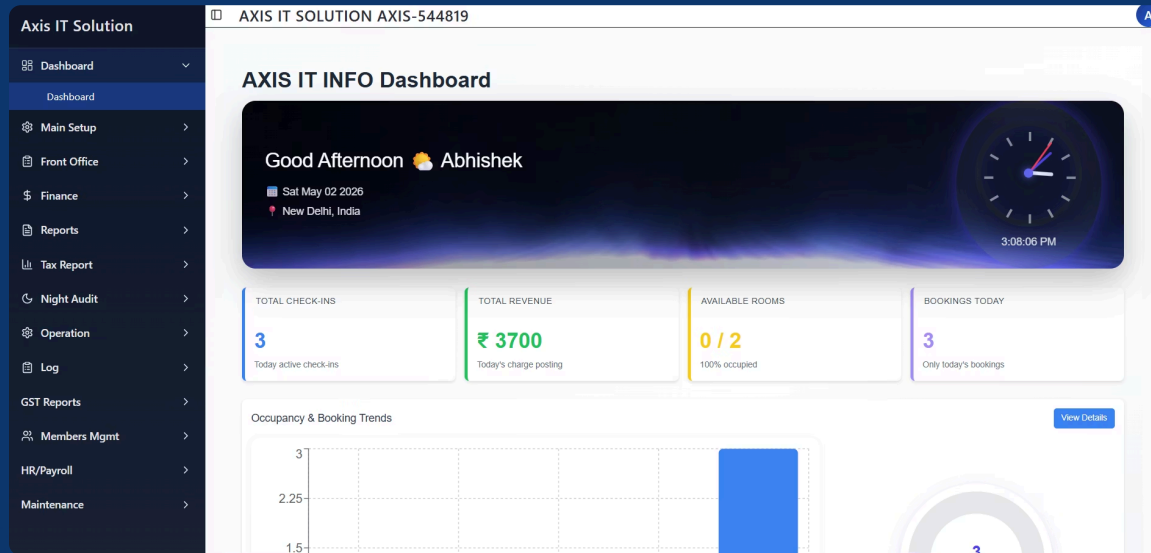

What's Included?

- Manage Rooms & Guests
- Track Check-in / Check-out
- View Dashboard Insights
- Secure Login for Each Hotel
- [Need Help? Contact Support](#)

A screenshot of the 'Owner Login' form. It features a title 'Owner Login' with a link to 'Staff Login'. Below are two input fields: 'Enter Hotel Code' and 'Enter Password'. A prominent yellow 'Login' button is at the bottom, with a 'Forgot Password?' link underneath it.

Owner Login and Staff Login are separated, ensuring role-based access control across every hotel.

Attractive & Dynamic Dashboard

The HMS dashboard delivers a **real-time snapshot** of your hotel's performance at a glance.

Total Check-Ins

Live count of daily active check-ins

Total Revenue

Today's charge posting & billing totals

Available Rooms

100% real-time occupancy tracking

Bookings Today

Only today's bookings summary

Plus **Occupancy & Booking Trends** graph with interactive date-range views.

Check-In Management & Billing

The screenshot displays the 'Axis IT Solution' software interface for managing guest check-ins and billing. The interface is divided into a sidebar menu on the left and a main content area on the right.

Sidebar Menu:

- Axis IT Solution
- Dashboard
- Main Setup
- Front Office
- Operations

OTHER INFORMATION

☐ Send Email At Check-out ☐ Suppress Rate On Registration Card

Complete Guest Lifecycle Management

From arrival to checkout, manage every guest touchpoint with precision and ease.

→ Check-In / Check-Out

Record arrival & departure dates, room assignments, and guest details seamlessly.

→ Billing & Business Details

Full billing module with booking source, room type, rate plans, and GST tracking.

→ Guest Information

Store full name, mobile, email, address, nationality, and complementary room status.

Night Audit & Charge Posting

- ❏ **Night Audit** is an end-of-day hotel accounting process that reconciles all daily transactions, room charges, and financial records — a critical feature for any hotel operation.

Night Audit

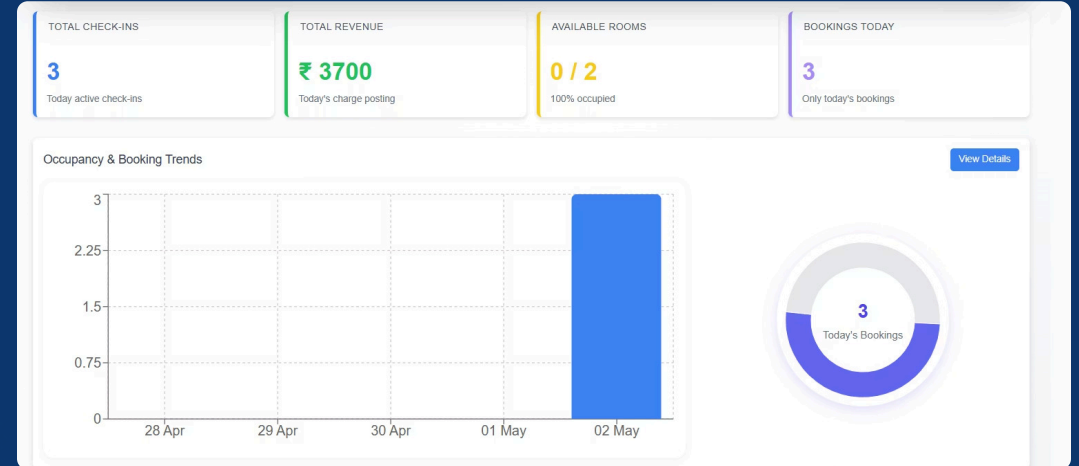

Automates the end-of-day reconciliation — closing the business day, rolling over the date, and generating financial summaries accurately.

Charge Posting

Post room charges, restaurant bills, laundry, and other guest charges directly to folios in real time.

Reports & Logs

Comprehensive audit trail with ERP-style reports accessible from the sidebar navigation for full accountability.

Live revenue & occupancy data updated in real-time

Everything Your Hotel Needs

Room Management

Real-time room availability, status tracking, and assignment across all room types.

Guest Management

Complete guest profiles, stay history, preferences, and identification records.

Booking & Reservations

Manage advance bookings, walk-ins, group reservations, and booking sources.

Finance & Reports

GST billing, revenue reports, ERP integration, and tax report generation.

Secure & Verified

Email verification, JWT tokens, and Cloudinary ensure only authorized access.

Hotel Operations

Front office, housekeeping, night audit, and charge posting in one platform.

WHY CHOOSE US

Why Axis IT Solution?

Trusted by hotels for seamless, modern, and secure property management.

Dynamic & Fast

Built on React & Node.js for lightning-fast, fully responsive performance on any device.

Enterprise Security

JWT + Email Verification + Cloudinary provide a multi-layer, enterprise-grade security ecosystem.

Data-Driven

Real-time dashboard analytics and booking trend graphs give hotel managers actionable insights daily.

Hotel-First Design

Every feature — from night audit to charge posting — is purpose-built for the hospitality industry.

Axis IT Solution — Powering smarter hotels with technology that works for you.
